

ART³: A NEW WAY TO BULK FILL

Achieve lifelike restorations with the next generation of clinically proven Adaptive Response Technology (ART) found in Harmonize™ and OptiShade Universal Composite. Powered by Enhanced Adaptive Response Technology, SimpliShade Bulk Fill offers easy handling and low shrinkage.

Adaptive Rheological Response Technology for Ease of Sculpting

ART³ uses rheological modifiers that reduce the composite's viscosity as you manipulate it. When you're done shaping, viscosity recovers and anatomy stabilizes before light-curing — reducing the need for resculpting.

Adaptive Color-Blending Response Technology for Beautiful Blending

Achieve exceptional blending with special nanofillers that mimic enamel structures and interact with light in a natural way. The restoration and tooth become virtually indistinguishable.

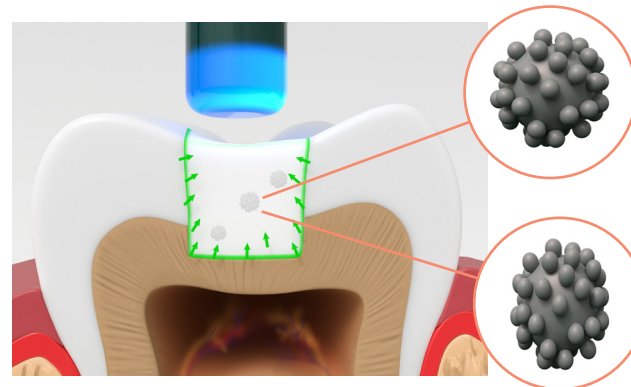

Human Enamel

SimpliShade Bulk Fill Flow

Adaptive Shrinkage Stress Response Technology for Durable Results

Increase confidence in long-lasting restorations. ART³ relieves interfacial stress between the filler and resin matrix during curing. Less stress on the adhesion layer allows for enhanced marginal adaptation.

Ordering Information

SimpliShade Bulk Fill

Part #	Item Description
37211	SimpliShade Bulk Fill Composite Syringe
37212	SimpliShade Bulk Fill Composite Unidose 20 Pack

Keep it in the family with our full line of SimpliShade products!

SimpliShade Bulk Fill Flow

Part #	Item Description
37217	SimpliShade Bulk Fill Flow Syringe
37218	SimpliShade Bulk Fill Flow Unidose 20 Pack

SimpliShade Universal Composite

Part #	Item Description
37001	SimpliShade Universal Composite Syringe, Light
37002	SimpliShade Universal Composite Syringe, Medium
37003	SimpliShade Universal Composite Syringe, Dark
37004	SimpliShade Universal Composite Syringe, Bleach White
37005	SimpliShade Universal Composite Syringe, Universal Opaque
37006	SimpliShade Universal Composite Unidose 20 Pack, Light
37007	SimpliShade Universal Composite Unidose 20 Pack, Medium
37008	SimpliShade Universal Composite Unidose 10 Pack, Dark
37009	SimpliShade Universal Composite Unidose 10 Pack, Bleach White
37010	SimpliShade Universal Composite Unidose 10 Pack, Universal Opaque

SimpliShade™ BULK FILL

Simplify with One Shade and One Step

Beautiful restorations just got simpler, with SimpliShade™ Bulk Fill. You can skip the capping layer with a one-step placement and reduce inventory requirements with one shade for all 16 VITA® classical shades. Powered by Ternary Adaptive Response Technology (ART³), SimpliShade Bulk Fill is easy to handle with low shrinkage stress.

ONE SHADE IS ALL IT TAKES

Get the adaptability, durability, depth of cure, and simplicity you need with SimpliShade Bulk Fill.

One-Shade System

Using one shade that blends seamlessly with all 16 VITA® classical shades, SimpliShade Bulk Fill saves you time selecting shades and managing inventory.

One Step

Eliminate the need for a capping layer, complete restorations with a SingleFill™ composite. With its enhanced curing mechanism, SimpliShade Bulk Fill makes it easy to achieve polymerization depths up to 5mm in a single step.

Simplicity with Durability

SimpliShade Bulk Fill offers lower wear rate, higher flexural strength, and comparable shrinkage stress relative to other bulk fill brands on the market, keeping your restorations stronger longer.

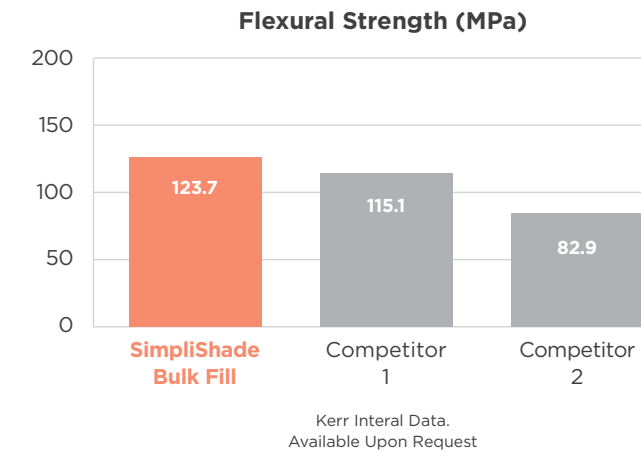

Chameleon Effect

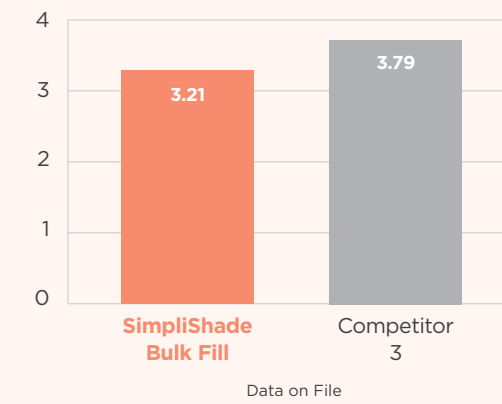

Special nanofiller architecture mimics the natural enamel structure and interacts with light for virtually indistinguishable blending.

Flexural Strength

SimpliShade Bulk Fill demonstrates comparable or higher flexural strength compared to Competitor 1 and Competitor 2 resulting in better resistance to chipping and fracture over time.

Shrinkage Stress (at 2 min.)

Shrinkage Stress

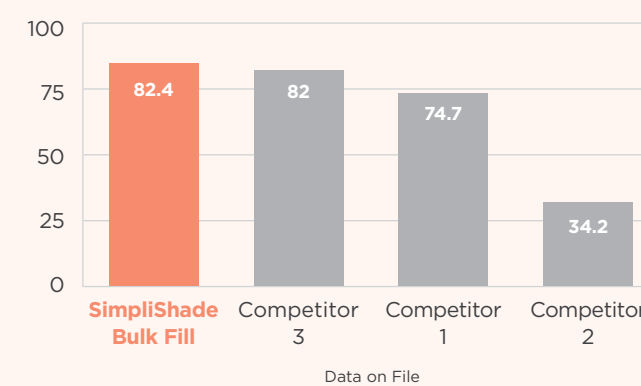

SimpliShade Bulk Fill has comparable shrinkage stress to Competitor 3, resulting in lower marginal degradation and postoperative sensitivity for a long-lasting restoration.

Wear Rate

SimpliShade Bulk Fill has the lowest wear rate relative to Competitor 1, Competitor 2, and Competitor 3. Low wear rate results in a restoration that will withstand the daily forces of chewing, brushing, and other occurrences.

Initial Gloss (GU)

Initial Gloss

SimpliShade Bulk Fill has comparable initial gloss to Competitor 3, and higher initial gloss than Competitor 1 and Competitor 2, resulting in a more esthetic restoration.

Handling Properties

Adaptive rheological response technology reduces viscosity during manipulation for easier sculpting and anatomy creation.

SimpliShade Bulk Fill used here as a capping layer for SimpliShade Bulk Fill Flow.
