<p><b>DAYLIGHT MODE</b></p> 	 <p>Record of <b>natural colors</b> for a better interpretation of tooth shade, pathology identification and patient follow-up</p>	<p><b>DAYLIGHT+ MODE</b></p> 	 <p><b>High contrasts</b> emphasizing anatomic fissures and details of the dentin structure/depth.</p>
<p><b>PERIO MODE</b></p> 	 <p>Enhancement of <b>dental plaque and gingival inflammation</b> thanks to chromatic amplification.</p>	<p><b>CARIO MODE</b></p> 	 <p><b>Caries detection</b> by fluorescence technique by LEDs.</p>

To order: C50 with diagnostic Aid S\_C50\_0001

C50 without diagnostic Aid S\_C50\_0002

# Servotome II

A New Impulse In Electrosurgery

High frequency electrosurge or orthodontics, periodontics and other oral surgery with a single footswitch, a box with 10 electrodes & a conductive bracelet.

**2 YEARS WARRANTY**

### Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

### Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

### Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

# Softly Amalgamator

Softly is very stable, extremely quiet, and very easy to clean and maintain. To guarantee totally safe operation, softly is deactivated when you open the front cover to access the capsule. Softly is made entirely of injection-moulded ABS material. It complies with all electrical and mechanical safety standards.

**10% OFF RRP**

# x-mind prime 2

acteon  
imaging suite

## 56 x 2D and 3D programs

- Easy interface to use
- Complete 3D diagnostic tools, powered by AIS3DAPP, to fully exploit the clinical content from your cases
- The Implant Planning Wizard combined with a Cloud implant library allows you to easily and safely plan your surgery in just a few clicks
- The Surgical Guide Design option brings your planning to the surgical room with the highest fidelity possible with a custom designed surgical stent
- Effective patient engagement: export to portable viewer and involve the patient in the diagnostic process and raise his awareness to boost case acceptance

Strong hardware combined with smart software to fast diagnostic.

Elevate your clinical performances

Whatever your specialty in dentistry, the quality of the diagnosis is a pillar of a clinical workflow to guarantee successful analysis, treatment plan, procedure and outcomes.

On X-MIND® prime, a complete choice of exam modalities combined with a premium-class image quality will get you the ability to successfully handle any patient type in any clinical landscape.

## Last detection technologies for high technical performance

High resolution image, up to 72,5µm of voxel size

Fast acquisition

SMART option, the innovative Selective Metal Artifacts Reduction Tool

## Meet the Prime Family

X-MIND® prime is available in four models, 2D wall mounted, 3D wall mounted, 2D ceph and 3D ceph, to suit any installation setup and clinical need.

X-MIND® prime 2D ceph

X-MIND® prime 2D wall mounted

X-MIND® prime 3D wall mounted

X-MIND® prime 3D ceph

N° 15248

Caring People. Improving Lives

2024

**WARNING - Breaking news - WARNING**

**Stop**  
using competitors' tips  
with **ACTEON®** devices

Could seem financially interesting initially but more costly in the long term:

- 1- Tips need to be changed more often
- 2- Increased treatment time
- 3- Potential damage to the handpiece may require replacement

**Choose only the ACTEON® Original Tips to get the full performance of your ACTEON® ultrasonic device**

Only ACTEON® Original Tips can guarantee optimal performance and safety of use with our ultrasonic devices.

ACTEON®'s liability and warranty of parts and accessories is voided when damages occur due to the use of non ACTEON® Original Tips.

# Euronda E10 Autoclave

## Digital Traceability

In compliance with EN 13060, all sterilization cycles are saved on USB (for E10) or SD Card (for E9) and can be transferred to a PC via Ethernet or WiFi connection

## Load validation and release

This function allows users to keep a digital record of the compliance of the sterilization process in both the loading phase and the unloading phase. The operator ensures that the pouches are dry and checks their integrity and the state of the instruments, while also making sure that the sterilization parameters are satisfactory.

## Print set options

The expandable traceability system allows three types of printers to be installed, depending on requirements. Set 1 and 2 can be installed at the front of the autoclave without any additional space whilst print set 3 is installed outside the device.

**E-Memory is the software** for the complete archiving, management and traceability of all sterilization cycles and data directly on a PC. This application can automatically, semi-automatically or manually capture data from the sterilization process and save it directly to the computer. This data can be easily organised, searched, printed and emailed. E-Memory also makes it possible to trace and select all information related to the cycles performed by the different devices (thermodisinfector, sealer and autoclave) involved in the sterilization process. It is easy to consult and manage, and allows you to send selected cycles and data directly to technical support in just a few clicks, and to automatically produce reports and PDF certificates with header, graphic logo and personal data.
