

HANDS-ON WORKSHOPS

Immediate implant placement with EthOss® Synthetic Bone Graft

Presented by **Dr. Stuart Kilner** BDS (UK)

Join Dr Stuart Kilner for this immersive course which will examine immediate implant placement with EthOss Synthetic Bone Graft. The course will include a series of lectures and case reviews covering:

- An overview of techniques for placing an implant with immediate load or delayed load
- Theory on immediate loading in the aesthetic zone – with case review
- Theory on upper molar immediate placement delayed load – with case review
- Tenting technique case presentation

ABOUT **Dr. Stuart Kilner** BDS (UK)

Dr Stuart Kilner graduated from the University of Manchester, since then he has developed his surgical and prosthetic skills working predominantly with dental implants and related restorative prosthetics. He has undertaken a 2-year Postgraduate Master of Science Degree in Advanced Implantology from the prestigious University of Barcelona, Spain. He has experience lecturing all over the world, at events in the UK, Munich, and Moldova on topics such as full-arch implant therapies and immediate implants.
